CAREER OBJECTIVE

Motivated Computer Science Engineering student with strong hands-on skills in Python programming, Machine Learning, and web development using Streamlit. Passionate about designing practical AI solutions and building user-friendly applications to solve real-world problems.

EDUCATION

B.E Computer Science and Engineering (7.5 CGPA) <i>Kamaraj College of Engineering and Technology, Virudhunagar</i>	2024–2028
Higher Secondary Education - 12th Standard (83.8%) <i>De Nobili Mat. Hr. Sec. School, Madurai</i>	2023–2024
Secondary School Education - 10th Standard (72.4%) <i>De Nobili Mat. Hr. Sec. School, Madurai</i>	2021–2022

TECH STACK:

Programming Languages: Python, Java.

Front-End: Html, CSS

Frameworks & Libraries: Streamlit, Hugging Face

Tools: GitHub, VS Code

Soft Skills: Team Work, Time Management

INTERNSHIP:

ML & Tech Career Accelerator – Panith Innovations, Bangalore	2025–2026
- Gained practical experience in Machine Learning workflows, Git version control, web technologies, and AI deployment strategies. - Applied hands-on techniques to build, structure, and deploy AI models and web solutions effectively.	

PROJECTS :

DIABETES PREDICTION SYSTEM

- Developed an end-to-end machine learning application designed for early diabetes detection using patient clinical data.
- Implemented comprehensive data preprocessing techniques, including missing-value handling, outlier detection, and feature scaling in Python.
- Trained and evaluated classification machine learning models to maximize prediction accuracy and reduce false diagnostics.
- Built and deployed a user-friendly, real-time web application framework utilizing Streamlit for instant diagnostic feedback.
- Designed an intuitive dashboard interface allowing healthcare providers and patients to seamlessly input health indicators and analyze risk factors.

CERTIFICATIONS & ACHIEVEMENTS:

- MongoDB Developer (5x Certified)
- Cisco Networking (3x Certified)
- Infosys Springboard (2x Certified)

LANGUAGES:

Tamil, English
